ALFORD KINDRED
PRIMARY EXAMINER

Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Examiner's signature, if required

The interview mainly discussed the proposed amendments for independent claims 1, 10 and 17; wherein the applicant further clarified the embodiment of the claimed invention in association with the current proposed amendments.

The applicant mainly discussed the amended claimed limitations of "... a light-based communication connection ... in order to ensure a defined positional relationship between the first and second component ..." wherein the "light-based communication" may be implemented as infrared communication, and the applicant further presented that Kumar and Scott does not teach/suggest individually/in combination the above limitation.

The examiner expressed that the current proposed amends, in association with the claimed limitation of the "light-based communication," appear to correspond to the non-elected Species III from the restriction in the preceding office action, dated June 25, 2007.

No agreements were reached during the interview.
